

THIS IS THE ASSIGNMENT FOR Day5:

1.)

Build a yellow div which will get a new Hi every time you mouse over it...THIS IS THE ASSIGNMENT FOR TODAY.

Div code is given below, so you dont have to loook at padding etc..

```
<div style="padding:50px; background:yellow;" onmouseover="myFunction()" id="myDiv"></div>
```

Also note:- We had covered onclick and onmouseover events yesterday. onmouseover is being used in the code below

Write code on top of this:--

```
<!DOCTYPE html>
<html>
<body>
<script>
    function myFunction() {
// CODE WILL GO HERE

    }
</script>
```

<p>In this example, the yellow div will get a new Hi every time you mouse over it:</p>

```
<div style="padding:50px; background:yellow;" onmouseover="myFunction()" id="myDiv"> </div>
```

```
</body>
</html>
```
